JEFFERSON ON EDUCATION

"I think by far the most important bill in our whole code, is that for the diffusion of knowledge among the people. No other sure foundation can be devised, for the preservation of freedom and happiness . . . Preach a crusade against ignorance; establish and improve the law for educating the people . . . The tax which will be paid for this purpose, is not more than the thousandth part of what will be paid to kings and nobles, who will rise up among us if we leave the people in ignorance."
